2. Owners Name
3. Shop Address
4. Shop Phone & Fax Numbers
5. Email Address

Warm regards,

ShopSmart management, we are your true friend...

Buy direct and cut out the middlema. By the time an item gets to your shop you are paying for the wholesaler and the jobber's markup. You can save up to 33% by buying direct from a manufacturer like ShopSmart!

Daily your shop is consuming plastic sheeting, clear coat, primer, putty, thinner, reducer, body filler, paint, sealer, and many more items. If you do the math, the savings can really add up. You make money on (1)labor, (2) parts and (3)material. Labor is fixed, you can't really change how long it takes to get the work done. A part is a part and the prices don't vary much between dealers. Material used to be the same as parts, but now you have a choice. Call me and you will be surprised at the thousands of dollars you can save. Try this:

Let us assume you purchase only on your masking paper 3 rolls per month different sizes, one of each, 6, 12, 18 & 36 inches. At \$29.99 it will cost you you \$359.88/month. Our price is \$16 so you would save \$167.88/month and that's just masking paper. Imagine what you will save buying plastic sheeting, clear coat, primer, putty, thinner, reducer, body filler, paint, sealer and many more items from us.

It is amazing to me how this industry been sucking the blood out of you guys for so many years. It has to stop and I want to help. Contact me at (310) 644-1333 and stop the bleeding. What do you have to loose? -Kas
