To all my enemies

*This is the time and the moment of truth, be a part of my organization and take back what they took from you. Talk to other members and listen what I have done for them thus far, why not you? I bring changes one shop at a time.*

**ShopSmart is the place others don't want you to know**

For years 3 warehouses, OAK, PBE & Angel, plus their handpicked partners some "PAINT STORES" been dominating the industry and charging a great deal of money for products and became fat cats on the back of poor body shop owners and major manufacturers who are on the front seat. They have designed by choice a system to control the market and get away with price fixing, I sell products at their true value to body shops and try to help body shops anyway I can. I have done that successfully with the help of my members "Body Shops" and they all tried to discredit me however I have exposed them of who these people really are. Manufacturers need to take a look and see who are the real friends of the body shops and who really cares for them and their industry.

**Each hand adds more to the cost and by the time it is passed on to the shop, the price has gone up drastically.**

In the process of fixing cars body shops are in need of paint. Paint companies also plays a role in this corrupt market by making insurance companies pay corrupt prices, however insurance companies should pay only for the true value of the products and the true value of cost of property damages. Now ask yourself how many times a year products that you buy daily has gone up, 2 or 3 times! Why? I can tell cost of buying insurance is cheaper, I can buy where ever I want that is a fair competition, please do not think anymore insurance companies are your enemies, look at the core.

The era of change is here and we all know leopards do not change spots. This industry is nothing without body shops and for as long as I am alive no one can take advantage from them anymore and that is a promise. I have created a website better than the catalog with the exception our site is live throughout our country 24/7 for every body shop whom they need my help, I am here for you all. We are the fastest growing company in the industry, Thank you members you own ShopSmart and I am only the keeper and your eyes and ear, rest easy I am working toward progress, along the way thus far I have met few great industry leaders whom they care for you all as well and we all will meet soon.
